Preface

Before using this information and the product it supports, please read the following general information.

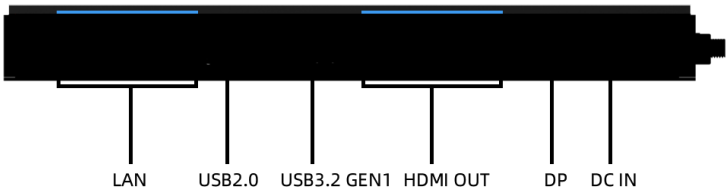

This service manual provides you with all technical information relating to the BASIC CONFIGURATION decided for "global" product offering. To better fit local market requirements and enhance product competitivensess, your regional o f ce may have decided to extend the functionality of a machine (e.g.add-on-card,modem or extra memory capability). These LOCALIZED FEATURES will Not be covered in this generic service manual. In such cases, please contact your regional o f ces or the responsible personnal channel to provide you with further technical details.
